Code Download

Please follow the instructions at **https://www.conduktor.io/kafka-for-beginners** to download the code.

Happy learning!

Having problems downloading?

1. Try using a different network, such as your home or phone network, it's possible your company's firewall would be blocking the download.

2. Try using a VPN service such as TunnelBear (https://www.tunnelbear.com/, it's free!) to VPN into another country where you should be able to download the course content
